

Azarakhsh International Group of Facade Brick factories has been able to create the greatest variety and capacity in its productions by experienced specialists and by using the most modern technologies in the world in accordance by international standards and in accordance to the rules of ISO 9001. The production range of this industrial group has the ability to produce various bricks with different colors, shapes and dimensions from traditional and antique designs (Rustic) to modern.

Azarakhsh International Group has always tried to understand the needs and tastes of consumers and the design and production process of its products is unique in such a way that a combination of beauty and efficiency can be seen in it.

The International Group of Azarakhsh intl. group of Factories, the assistance of active personnel and specialists, and the exploitation of its exclusive mines and the use of the highest quality raw materials for the production of brick materials. Azarakhsh International Group is currently the largest producer of brick products of durable building facades with excellent and similar exterior in the Middle East, and is the only producer of many types of different bricks in the world.

Vision

The top brick producer in the world in terms of quality and production capacity.

Mission

Industrial and modern production of building façade, paving, bricks with the latest technology in the world.

FACTORY NO 4

FACTORY NO 3

FACTORY NO 2

Factory No.1 - 1997

After 6 years from the first production unit, the second factory this collection is equipped with the most advanced machines and equipment world and with a production capacity of 18,000 tons of fireproof bricks for building it was established in the industrial town of Mahmoud Abad, Qom. Factory No. 2, in addition to having an advanced granulation unit, has there are 12 hydraulic presses with capacities from 980 to 1400 tons.

Factory No.3 - 2008

Azarakhsh International Group for the purpose of increasing exports and foreign exchange and also the development of entrepreneurship in the country, its unit number 4 in the city Mahmoudabad Industrial, Qom under the title "International Industrial Development Company" Azarakhsh Fireworks" in an area of 60,000 meters and with a production capacity of 360,000 tons established.

Factory No. 4 has the most modern production line for facade bricks and it is equipped with the latest technology in the world. This factory in all production stages and processes from graining to mills, hydraulic presses, dryers, roller furnaces, and packaging from automatic and robotic facilities benefits and with the capacity to produce more than 200 thousand molds per day, to one it has become one of the largest brick factories in the world.

Develop Factory No.4 - 2023

Factory number 1 with the benefit of exclusive mines, modern equipment and with the help of experts and committed personnel, he was able to achieve his brilliant path to start in the glorious industrial town of Qom.

This production unit is equipped with granulation, pressing, baking and it is packaging. Quality control and analysis laboratory, automatic probes with capacities of 400 to 980 tons and shuttle furnaces with capacities of 50 there are 100 other facilities of this factory.

Factory No.2 - 2003

Factory No. 3 after various marketing's on an international scale, in 2008 with an annual capacity of 60,000 tons of production of fireproof bricks and the floor of the building was established and put into operation.

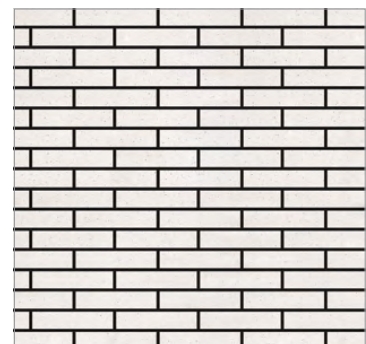

This factory uses 14 automatic hydraulic press machines of the company SACMI (Italy) with a capacity of 1400 tons and also a tunnel furnace autocar has been able to supply various products.

With the activity of these three production units under the name "international company Azarkhash Refractory Ceramics" Azarkhash International Group is proud to the location of the largest factory of non-flammable products with permanent facades building in the Middle East and the only producer of fireproof brick panels a large-scale decoration was achieved in the country.

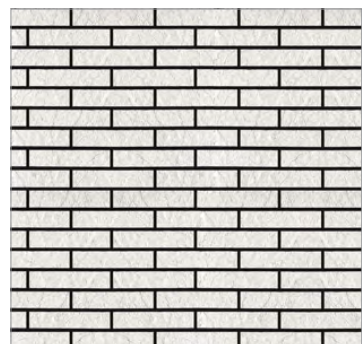

Factory No.4 - 2017

This collection has been able to take a big step in achieving the needs, tastes and the satisfaction of different groups and customers.

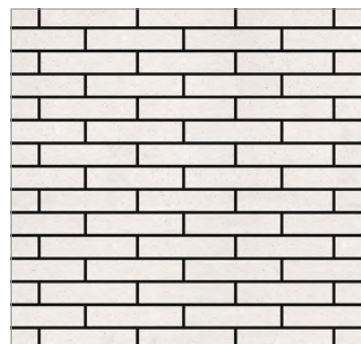

At the same time, considering the growing needs of the construction industry market. "factory 4 Development Plan" by adding 30,000 meters to the factory area and 20,000 meters of internal space is being built. These actions It has led to the doubling of the production capacity of this unit.

Exposure to sunlight for a long time and continuously leads to changes in the color of objects. Materials also undergo color change. One of the characteristics that distinguish Azarakhsh brick is the stability and durability of the color of all its products due to the use of natural coloring elements in the production process.

By Azarakhsh bricks, you can enjoy the quality and color of the first day after many years.

The presence of a wide range of colors derived from nature and an eye-catching combination of them is the gift that Azarakhsh bricks bring. A comprehensive collection of colors and forms based on your thoughts and taste that lead to a pleasant and efficient result and play a lasting role in the art of this border and landscape.

Some of the honors and certificates of Azarakhsh Facade Brick Factories International Group:

- ◆ Obtaining two ISO 9001 certificates from MIC and Premier UK
- ◆ Received ISO 9001-2008 quality management certificate from UK ITCC
- ◆ Obtaining the certificate of international standard 10002-2004 Customer satisfaction system from UK
- ◆ Received OHSAS 18001-2007 standard certificate Health and Safety from ITCC UK
- ◆ Obtaining ISO 14001-2004 international standard certificate Environmental Standard (E) ASCB England
- ◆ Winning the position of golden product 2010 Confair Iran
- ◆ Receive the standard mark of Iran
- ◆ Obtained 8 certificates from the American Brick Association

- ◆ Obtaining the title of Muslim Entrepreneur from Tehran University in the ceremony of the 80th year of the University of Tehran
- ◆ Chosen by the head of the legislative branch, Mr. Dr. Larijani, the father of the new brick industry
- ◆ Winner of the International Conference of Architecture and Mathematics of Kashan University
- ◆ Selection of sample industrial and mining units in 1994-9
- ◆ Chosen as a lasting figure from the Ministry of Science, Research and Technology
- ◆ Chosen exemplary entrepreneur from Shahid Beheshti University

Targets

- ◆ Continuous increase of product quality according to international standards
- ◆ Development and production of new and up-to-date products in different colors and dimensions in accordance with the development of the brick industry and the construction industry in the world
- ◆ Development of the domestic market by increasing customer access across the country
- ◆ Improving the network of sales representatives in all parts of the country
- ◆ Improving non-oil exports through product exports and developing trade relations with other five continents
- ◆ Training of efficient and specialized personnel in order to improve the human resources development index
- ◆ Commissioning and operation of factory No. 5 in Europe (Germany)
- ◆ Customer orientation and improving the consumer satisfaction index
- ◆ Continuous and purposeful research and development in order to meet the changing needs of customers
- ◆ Motivate staff and involve them in advancing the company's goals
- ◆ Improving production processes with the aim of reducing waste and increasing productivity
- ◆ Development and planning for green production with the aim of protecting the environment
- ◆ %100 planning and implementation of the Total Quality Management Process (TQM)
